

## CASE #2 - World Leader Generator Set Manufacturer

### Implementing ISO standards at customer premises

## #Challenge

This world leader in the manufacturing of generator sets wanted to be able to conduct tests at its laboratory to **obtain the certification** for **international standard ISO/IEC17025** and **expand internationally**.

Trescal was consulted to **support the laboratory** in its accreditation process with the French COFRAC audit, responsible for accrediting laboratories in accordance with the ISO/IEC17025 standard.

## #Solution

Trescal undertook audits of processes and set up:

- > **new procedures**
- > **technical documentation**
- > **training** of laboratory staff

Trescal recommended that its customer should invest in optimising its measuring instruments inventory.

## #Summary

**dedicated industrial & methods expert**

**1 ISO/IEC 17025 ACCREDITATION**

**18 DAYS**  
expert assignment
